12 **ABSTRACT OF THE DISCLOSURE:**

13 A three-component, protective headgear or helmet is provided
14 with a battery-powered LED head lamp, which may be used by
15 construction workers, search and rescue persons, cyclists,
16 police, fireman, and the like. The battery may be replaceable or
17 rechargeable and has long-term, uniform output characteristics
18 driven by unique circuitry.
